1. Attached is a copy of the computer run which should reflect your latest requirements. In your last submission, you requested some additional special space. Your original submission of special space reflected the Office of Security 1987 projected figures. The increase is for a 2,100 square foot classroom and a 1,000 square foot library. You will note that I have these shown on the run, but under the column headed 'COMMENT' there is a note--either "pending OCR review" or "pending OTE review." All library and classroom requests will be reviewed by OCR and OTE. We are trying to ensure that: first, there is a need; secondly, that we are not duplicating requirements; and thirdly, how to best serve the requesting office. [REDACTED]

2. The computer run reflects your latest input on personnel, which shows an increase of 111 positions. The Comptroller shows only an increase of 31 new positions for FY-84. Please review the run to make sure that I did not duplicate any of your positions. Attached is an extra copy of the run so that you may mark directly on it. [REDACTED]
